2. Dr. Hochberg put me on a 3,000 calorie tray and a snack bag on 3-5-14 because I had lost down from 235 lbs to 205 lbs in a short period of time but the Michelle Watson has refused to give either one to me until 12-17-14 because she claims that she never got any paper work. Exhibit E

Campbell, Thomas DOB: 05/08/1973 DOS: 02/08/2011/ROBERT C. STRONG, M.D.

Mr. Campbell returns today for followup for neck and low back pain. He has disc protrusions identified on MRI and CT myelogram at C5-C6 and C6-C7 on the left with left upper extremity radicular pain. He complains of low back. He has also had pain in his left lower extremity. There is evidence on his nerve conduction studies and EMGs of peripheral neuropathy in his lower extremity. CT myelogram of the lumbar spine did not show any abnormalities.

PHYSICAL EXAMINATION:

Patrick's test is positive bilaterally more so on the left than the right. He is exquisitely tender over the left sacroiliac joint and mildly tender over the right sacroiliac joint. Extension with torsion of the lumbar spine produces non-concordant pain on the right and on the left. Concordant pain is just below the level of the iliac crest more or less in the midline. Additional history is that when he is lying flat on his back he has tremendous low back pain, which is relieved by getting his legs elevated on pillows. He continues to have radicular symptoms in his cervical spine. On the epidural steroid injections he gets three or four days of relief out of each one. I have discussed surgical referral with Mr. Campbell. I feel that he should be evaluated by surgeon to assess his cervical spine pathology at C6-C7 and C5-C6.

IMPRESSION:

1. Disc protrusion at C6-C7 with foraminal stenosis on the left at C6-C7 and C5-C6 with radicular pain left upper extremity.
2. Bilateral sacroiliitis.
3. Lumbar facet syndrome.
4. Peripheral neuropathy with left lower extremity pain.

PLAN:

1. Surgical referral to evaluate cervical spine pathology at C5-C6 and C6-C7 and his radiculopathy.
2. Bilateral sacroiliac joint injections. Hydrocodone 10/325 mg one p.o. q.i.d. p.r.n. pain. He is given prescription #120 with one refill. We will schedule him for bilateral sacroiliac joint injections and return to clinic in eight weeks in case his sacroiliac joint injection is not approved by the Workmen's comp company.
3. Neurontin 300 mg two to three times day.
4. Baclofen 10 mg one p.o. t.i.d. He _____ that he was on baclofen 20 mg t.i.d.

Affidavit

This is a voluntary affidavit a declaration of facts written down by me, Thomas Campbell, and sworn to by me the declarant, Thomas Campbell, before an officer authorized to administer oaths, such as a notary public.

When I got off the transportation bus on 12-8-14 I informed the transportation officer that I had to use the bathroom and that it was hurting because I had been in a wreck and severed my urethra tube coming from my bladder and I had a catheter in for over 3 months while it healed and it causes extreme pain when I have to try and hold it. He said fine let me remove the chains and you can go. I was looking at the toilet no more than 10 ft. away and officer Fred Walker told me that he was going to call roll before I could use the bathroom. I waited painfully. When he found out that my name was

Campbell, he then told me that I had to carry my 3 big bags by myself from over by the bus to the property room by myself with the cane all by myself. Walker informed me that he was going to throw away most of my property. Officer Walker and Officer Hodges destroyed my property throwing it this way and that way while they were going through it. All they did was open all the other inmates bags and tell them to go ahead and get dressed. When I went to pick up my property, I was putting it in the bag slowly and organizing it because it was completely destroyed. Officer Hodges and Walker grabbed me and shoved me into the holding cell and pushed me down onto the bench. I was sitting there looking up at officer Hodges with my hand besides my sides and he hit me on the right side of the head and told me not to look at him while he was talking to me. He told me to get out there and get my stuff up in 2 min. or they were going to stomp me to sleep and throw all my stuff away. I ask the nurse who was over there checking us in what was their names and what had she seen and she did not see nothing and did not know their names. Then when I went over to see Nurse Brown ~~to~~ so she could continue my meds. I came back to the property room they had a stack of peanut butter sandwiches with my property and a brand new pair of 13 shoes because I had on 15 and I really wear 13. Nurse Brown wrote

me several medications that I still have not recieved and this is 12-12-14, I recieved tylenol and Dylantem on the 10th but no tets for my legs. I still have not recieved the Backlofen that help with the pain. I don't have anything to help me go to the bathroom, Nurse Brown said she wrote Ducolax which I have not recieved. I borrowed some Milk of Magnesia but I am still having to strain and it is making me bleed and hurt real bad. I have not recieved my 3,000 calorie tray or my snack bag since I got here because Michille Watson who runs the kitchen refuses to give it to me. I showed her a copy of the ARP which I filed in March of 2014 and did not get a finalization on until 11-20-14 and she said that she did not care what Superintendent Earnest Lee said, and to Warden Banks explaining everything (copies Exhibit C) sent out 12-14-14 and I have not heard anything back. I talked to Lt Ferry and she told me that the kitchen no longer gives out the 3,000 calorie trays even if they are prescribed by a Doctor. In *Estelle V. Gamble* 429 U.S. 97 (1976), "an to ensure that prescribed care is in fact delivered." I asked sergeant Williams on Dayshift in 29E on 12-12-14 to call the nurse and get her to bring my medication and she said it was not her Job. I even showed her my feet and legs and still she did not care. In *Estelle V.*

Gamble, 429 U.S. 97 (1976) "An inmate must rely on prison

authorities to treat his medical needs; if the authorities fail to do so, those needs will not be met." On 12-12-14 I again went to the tray hole to try and get my snack bag and Sergeant Barbara Johnson tried to spray me with mace because I was hollering into the tray hole because the inmate who was giving them out had left the tray hole. I tried to show her ARP - 14-1787 where Superintendent Earnest Lee said that everything had been straightened out on 10-6-14 and she did not care. I was first prescribed the 3,000 calorie tray and Snack bag on 3-5-14 by Dr Hochberg because I lost down from 235 lbs to 205 lbs in a short period of time. I have not recieved my snack bag except on Fridays + Saturdays when Michelle is off. because she says that my name is not on the list. I have had medical fax a copy of the form at least 10 times and I have personally watched them do it 4 or 5 times. Since 3-5-14. A fax goes straight through at most an hour to go through so why wasn't it put on the list. Estelle V. Gamble, 429 U.S. 97 (1976) "prison authorities were indifferent to his medical needs, and as that as a result of that indifference he has been mistreated and his condition has worsened."

Aldridge V Montgomery, 753 F.2d 970 (1985) "Deliberate indifference sufficient to make a constitutional violation is shown not only by failure to provide ~~prompt medical~~ case prompt attention to medical needs ... , but also by

intentionally interfering with treatment once prescribed."
From Feb of 2014 I lost down from 205 lbs to 158 lbs
in Sept. 2014 ~~in~~ which is documented in Medical files and
in Central Miss. Medical Center hospital. I filed an ARP
which is a grievance in March of 2014 and did not receive
the finalization until 11-20-14 which clearly states
that I should have been receiving the 3,000
calorie tray and the snack bag which was and
is being denied me. I am getting the snack bag
only because one of the medication Nurses, Nurse
Caseman brought me a copy of the prescribed order
on 12-17-14 even though she was told not to. However
I am still not receiving the 3,000 Calorie tray which
is on the prescribed order. Exhibit D. On Friday
Night 12-12-14 Barbara Johnson wrote me 3 RVRs
Rule Violation Reports. I have been RVR free since June 2013
I have never had an RVR for yelling or fighting with
an officer. I may have become upset, but what do you
expect when someone trys to spray you with mace for
trying to get something that is prescribed to you and
you have an ARP saying that you should have been getting
the snack bag for almost 9 months. I kept telling Nurse
Brown that I was not receiving my snack bag or my
3,000 calorie trays and she kept telling me that I
was not under weight and that I was just losing
weight because of the medication that I am on. even

though I continually was losing weight everytime I go into medical. The only reason she rewrote it this time on 12-8-14 is because I told her that the hospitas and Dr. Brazler wrot it for me to keep me from losing so much weight. I talked to Lt. Terry again on 12-15-14 and explained every thing to her, about my diet tray and snack bag, RVR's everything. She went to medical and checked and James Mack was there inmate # 77523 and heard Nurse Brown tell her that I was reordered the 3,000 Calorie tray and snack bag on 12-8-14 but ~~but~~ when I asked Lt Terry on 12-~~15~~¹⁸-14 she said that Nurse Brown said that it had to be reordered, so I showed her the printout that Nurse Case man had gave me and she still would not do any thing about my tray which she had told me when I get proof she would make sure that I recieve it. Inmate James Mack who has ~~chr~~ crohnes disease and is severly under weight is also prescribed the 3,000 calorie tray and is not recieving it. On 12-17-14 I went to medical to see Dr. Meacham and told him how much pain I was in because of my ankles, leg and feet and told him I was bleeding every time I go to the bathroom. Then I told him that I was not recieving my backlofen and he said that it was ordered and I should be recieving it. He ordered me some ducolax for about 3 weeks, which I need every day. He also told me that ~~he~~ he would increase my pain meds if I did not get any better, but he would

not give me a lay-in to help keep me off of my legs and ankles. I put in 2 more sick call about my ankles and to tell them that I was bleeding on 12-17-14 but they did not call me, so on 12-22-14 I told the officer that I was ~~was~~ bleeding would she tell medical when they called for sick call. So Medical called me to the clinic and I went in to see Nurse Brown and I was trying to explain about the bleeding and my ankles. She said that I was only there for the bleeding and if I did not shutt up she was going to throw me out and I asked her to please give me a lay-in so I could stay off my feet and legs and then she threw me out. I asked her to please check my blood level and she got the officer to remove me and put me in a cell. I went to Unit 42 Hospital on 12-23-14 to have my blood drawn and they gave me a stool sample kit and told me to turn it in to the Medication Nurse. The stool is solid black and there is red blood in it. I have been trying to give it to the Nurse but she won't take it. She said she was going to send EMT's to pick it up and now this is 12-27-14 and I still have the sample. Estelle V. Gamble "The Court recognized, *457 as it has in Estelle, that the state has a constitutional duty to provide adequate medical care to its prison inmates"

- 1.) My feet and Legs and ankles swell so bad when I am on them and they hurt me so bad I can't stand it because it is unberable.
- 2.) They have been swelling like this for 11 months straight.
- 3.) The swelling has gotten better since I was in C.M.C.F. 720 Facility, but the left leg, foot and ankle will swell any time I put a sock, shoe or any kind of pressure on it.
- 4.) I am in constant pain on the left side, more pain than I have ever been in my whole life.
- 5.) I have been trying to get help by putting in medical slip after medical slip most of them they just throw away.
- 6.) The varicos vein on my left leg is 3 inches wide and over 6 inches long and pokes out about 1 inch and is getting ~~more~~ worse and worse the more I stand, the more I have to strain going to the bathroom and the more I have to walk going back and forth to get my food. because ~~A~~ Angela Brown refuses to give me a lay-in. She says that she is only allowed to give lay-in to people who have had surgery and that is a lie I know that bed #13 and Bed #15 and #23 on 29E A zone ~~all~~ all have permenat lay-in and have never had surgery.
- 7.) My left foot I cannot feel my toes and my ankles

feel like they are in a bear trap and some body is pulling on them. 12-29-14

8.) I went to medical today because I begged Sargent Williams to call forme about my legs and I explained to Angela Brown how bad especially my left leg has gotten and I explained how the New tets for circulation that I got were making the pain even more unberable and I begged her for a lay-in because I can't even wear my shoes or socks without making the pain worse and she refused and all she did was order me another painof tets which I showed her that I had the brandnew pain and she sent me out.

9.) She saw how bad my foot and leg is and so did the Nurses on duty and they did not care.

10.) I am afraid that the vein is going to bust and I will die before anybody can get here to help because nobody really cares if I die or suffer like this.

11.) Miranda V. Munos 770 F.2d 255, 259 (1 Cir. 1985) "upholding denial of judgement n.o.v. where it could be found that defendants ignored a clear warning that the medical treatment for plaintiff was inadequate, allowing him to deteriorate beyond recovery" Duncan V. Part # 5

After putting in 3 request and waiting for over a week and I cannot hardly walk because of the swelling in my feet legs and ankles. I tried to explain which was obvious about my feet leg and ankles and about the rash on my legs and Nurse Brown told me to shutt-up. she told me that the rash was because of the tets which are suppose to help circulation, but then I showed her the rash on my upper legs and arms, so she again told me to shutt-up in front of Nurse Burchfield and inmate Farley # 39211. I asked her about refilling some of my medications that ran out the end August and she just kept telling me to shutt-up. Then I asked her why they had never checked my stomach after two hospital visits and then she said that I was showing out and acting ugly, but all I was doing was trying to find out about my body. She again told me to shutt-up and that she was going to inject me with haladol and I informed her that I was illergic to it and she said she did not care and that it would not kill me even if I was illergic. I told her that I had been put on it in Simpson county jail and had to be taken off of it because it was making my tounge swell and walk crooked for 2 or 3 days. She told Officer Paige

to hold me down and I continued to refuse, so they called Captain Morris. Captain Morris put me in a holding cell and called Officer Dudley and Captain Morris told me that he had no choice, if I did not comply they were going to put me in the hole and hold me down and inject me anyway. I was then shot up with naladol and sent back to the unit to suffer from the illergic reaction and never treated for the swelling

10. State briefly exactly what you want the court to do for you. Do not make legal arguments. Do not cite legal authority.

- 1) I want to have some pain relief not necessarily pain free
- 2) I want to have hemorrhoid surgery because I am tired of suffering with the pain everyday all day.
- 3) I want surgery on my neck or to at least go to a pain clinic and get steroid injection.
- 4) I want to find out why I am losing weight and can't keep weight on.
- 5) I want to know why my feet and legs are swelling so bad and I want my left leg treated before it gets so bad it has to be removed or worse.
- 6) I want the court to give me something for all the pain and suffering that I am having to deal with everyday. Cruel and ~~unusual~~ unusual punishment
- 7) I want MDOC Medical System investigated.
- 8) I want to press charges on Officer Hodges for hitting me in a defence state.

I have a few things that I need to tell you and a few things I need you to do for me. I am going to send you a copy of my ARP 14-1787 that I filed back in March or April of 2014 and did not receive a ~~copy~~ finalization until 11-22-14. It is only suppose to take 75 days. I was put on a 3,000 calorie diet per meal and a snack bag at night on 3-5-14 by Dr. Hochberg our old Medical Director, because I had lost down from 235 lbs to 205 lbs in a short period of time. I have not received either except on special occasions when Michelle Watson who works in the Kitchen, was not there. I filed the ARP to get everything straightened out but it took almost 8 months for an answer and even when I showed the ARP to

Michelle on 12-8-14 she told me that she did not care what Roger Davis ^{or Earnest Lee} said and she would not even go look at the list. Nurse Practitioner Angela Brown put me back on it for another year on 12-8-14 and they faxed it to the dining hall. A fax goes straight to the kitchen the same day. I have been denied my prescribed medical care. During this time I lost down from 205 lbs to 158 lbs which I weighed at Central Mississippi Medical Center in September of 2014 which is all documented. When I was in the hospital CMHC and Greenwood Leflore they put me on double up trays because they said I was severely under weight. and then when I got to CMCF 720 facility Dr. Brazier put me on double up trays and a snack bag

each meal. They did not want to give me the double up trays but he called over there and told them that it was nessary medical care and the kitchen at CMCF, gave it to me the whole time I was there. I went from 158lbs back up to 172lbs. Now I get back here and I am having the same problems all over again with Michelle in the kitchen. Michelle was off on 12/2/14 and I went to the tray hole to get my snack bag because when Michelle is off the inmate that usually gives the snack bags out knows that I am suppose to get one. Seargent Barbara Johnson tryed to spray me with Mace because I was hollering in the tray hole to get my snack bag because the inmate had left the tray hole. I had already showed her the A.R.P. on 12-8-14 and tryed to get her to get

I talked to Lt. Terry on 12-15-14 and on 12-14-14 and on the 11th about the 3,000 calorie and the Snack bag that is being refused. Finally on 12-15-14 Lt.

Terry went to Medical and had them check the computer to see if I was telling the truth and James Mack was there and saw them tell her that I was prescribed the 3,000 Calorie tray and a snack bag at night. James Mack is also prescribed both and he is receiving the snack bag but no Tray. He has Crohns disease and is severely under weight like me. Why is the extra food ~~to~~ that was prescribed to us being taken away when we really need it for our health.

Affidavit

This is a voluntary affidavit a declaration of facts written down by me, Thomas Campbell, and sworn to by me the declarant, Thomas Campbell, before an ~~officer~~^{officer} authorized to administer oaths, such as a notary public.

I went to medical on 11-3-14 and saw Nurse Giles she set me an appt. to see the doctor because my legs, feet and ankles were so bad my flip flop was ^{swollen} and ankles were so bad that my flip flop on my left foot even with my sock on was rubbing a blister about 2 inches long. I showed this to Nurse Giles and to Nurse Practitioner Joyce Johnson when I saw Nurse Johnson on the 10th, I could not wear shoes because my feet were swollen twice as big as the shoes and any kind of touching or pressure on them causes me an extreme amount of pain. I kept telling the tower officers about the pain and swelling and every time they called medical, medical would say to put in

another sick call. I kept showing Nurse Patrick, who comes to 720 Facility Building B2, D-zone transit everyday to talk to the people with medical problems. She kept telling me to prop my legs up and stay off of them so the swelling would go down, but the swelling never did. Nurse Patrick also kept telling me to put in another sick call but she never once did anything to help me with all the swelling and pain that I was in. When I saw Nurse practitioner Johnson on the 11-10-14 she said she would talk to them about a wheelchair. She also said that she was going to talk to Dr. Brazier about increasing my neurotin and backlofen or putting me on something stronger for pain. Then when I told her about me being in the hospital bleeding for two weeks and that I was still bleeding when I go to the bathroom she said that I was telling her too much and she could only treat me for so much and that it was time for me to leave so she could see someone else because it was getting late. Again on the 12th I passed red blood and I flushed 3 times and filled up the toilet 3 times. I saw Dr. Brazier on 11-14-14 and told him and showed him my ankles feet and legs and told him that I could not walk, stand or sit without being in severe pain. He told me that they had x-rayed my chest and heart and nothing was wrong with my heart and he did not know why there was so much fluid building up and not going down. I asked him about

the wheelchair that Nurse Johnson had mention and he said that they would not let them give me one. I then asked him about the pain medication and he said he would have to talk to Nurse Johnson and she said she would talk to him 4 days before, so I knew he was putting me off and did not care how bad I was really hurting. I asked him why I had to be in so much pain and suffer and he said that some of the inmates would kill to be on neurottin and backlofen and I told him that I would kill to have them fixed so I did not need the pain meds. because it is to a point to where the pain is unbearable ~~to~~ even with the neurottin and backlofen, so he said he would increase my neurottin and the back lofen when he talked to Nurse Johnson, which never happened. When I mentioned the two buldging disc at C5+C6 + C6+C7 and that I had seen an out side seragon in Floorwood, Ms a 1 year and a 1/2 ago. The reason that I am getting the neurottin and Backlofen and that The Sergon had said that I need sergury and that they agreed to do ~~sergury~~ ^{sergury}, but I never got it. He said that he did not know anything about it. Then I mention~~ed~~ about me passing all the red blood almost everytime I go to the bathroom and he acted like it was no big thing. I told him what Dr. Hochberg told me about the pollup and that I needed a biops^y done on it to see if it was cancer because of all the colon cancer on my mothers side

of the family and about it being the first cancer that my mother was diagnosed with. I also showed him the pictures that I have from Greenwood Leflore Hospital of the polyp in my colon and he changed his story because he had originally told me there was no polyp in my colon because that is what CMMC hospital had told him. He then told me after a lot of typing on the computer for a while he showed me on the computer where CMMC had done a biopsy and there was no cancer in my colon. He also said that CMMC had said that there was no sign of old blood or any sign of new blood when they scoped me, but while I was there for the first 5 days everytime I went to the bathroom which was a lot because I ~~drank~~ drank 5 gallons of golyte which is an extremely powerful laxative, I would flush two or 3 times of old black blood and then 2 or 3 flushes of fresh red blood and they were putting 2 pints of blood in me everyday except for the last two days and then moved me to a regular room out of ICU. and then in the regular room they gave me blood the first night I was there because my blood count was low. He then told me that everything ~~was~~ else was normal according to CMMC and said that I did not even have hemorrhoids so I showed him the pictures. So I showed him the pictures of my Grade II internal after

⑤

and external hemorrhoids, so he again changed his story but he could not understand why everything on the computer about the bleeding, the old blood and the hemorrhoids was different according to CMMC. He made out like he thought maybe CMMC had sent somebody else's records ^{from Greenwood-Leftore Hospital}.

He made out like he was going to get CMMC phone number and then he looked at the computer and began typing and he said wait a minute here it is and then he did a lot of typing for about 10 or 15 minutes at least it seemed that long. He then began to tell me that CMMC had done a biopsy on my colon and they never asked me or told me that they were going to or that they did, and to convince me that everything that CMMC did they said there was nothing cancerous in me from head to toe and nothing wrong with me from the head to waist. He did not know what was causing all the swelling in my legs feet and ankles or the pain and did not answer any of my questions about why, or trying something to help or find out what was causing it or sending me somewhere to someone who could find out what was causing it. So he began to push me out the door while telling me that he would talk to Nurse Joyce Johnson about increasing my neurotatin and back lofen when he is the doctor. He kept telling me that he was real sorry that Dr. Hochberg had made out like I, probably had cancer. Dr Braizer said that he knew

⑦

so I know they are either throwing my slips away or the medical staff is just not answering my calls for help. In *Estelle v. Gamble* 429 U.S. 97, 97 S.Ct. 285, 50 L.Ed.2d 251 (1976) "Deliberate Indifference to serious medical needs of prisoners constitutes the 'unnecessary and wanton infliction of pain' prescribed by the 8th Amendment. This is true whether the indifference is manifested by prison doctors in their response to the prisoners needs or by prison guards in intentionally denying or delaying access to medical care or intentionally interfering with the treatment once prescribed." *Parrish v. Johnson*, 800 F.2d 600, 611 (6th Cir. 1986). This court has held that a plaintiff with an ~~Eighth~~ Eighth Amendment claim ~~may~~ may recover for any injury caused by denial of medical care and any concomitant pain, suffering, or mental anguish." On 11-27-14 I went to the bathroom and even though I drank Milk of Magnesia and took 2 stool softeners and two ducolax the day before it was still so painful, that I have to grit my teeth and squeeze around my ~~ankles~~ ~~the~~ knees when I pass the stools and the pain does not ease for over half of the day even with all the pain medication I take each day. I talked to Nurse Patrick on 12-1-14 and she said that my appt. at the clinic was canceled and that she would talk

8

to the clinic about rescheduling me another appt. Now on 12-2-14 I passed some more stools and I am passing a lot of blood too and hurting so bad I can't stand it. This is just about every single day I have to go through this. My Left leg is getting worse and worse everyday the veins are ~~buldi~~ bulgeing out almost an inch right above my knee and about 4 inches long and the swelling is not going down or getting any better. I have rubbed a scar on my left foot from wearing th my flip flops even with a sock on because the swelling is getting so bad and I have showed this to all the medical staff and they don't even care. On 12-1-14 I talked to superintendent Ron King in MCF 720 facility and showed him my feet and legs and he said he would talk to medical. It is getting so bad I can't hardly walk and I still have not recieved a lay-in. I showed Nurse Patrick my feet and legs two different times and she told me to put in another sick call. I also told her about my hemorrhoids and me bleeding and she said that she looked in the computer and the clinic had already seen me for that one time and they were not going to call me in for that again. I finally went to medical about my neck and my Me not recieving my backlofen which is prescribed until 5-11-14. I have not got it since 11-23-14. They keep telling me that the pharmacy

has not filled the order yet. I still have not received it except 3 times when I came in around 12-15-14 Ms. Caseman one of the ladies that gives out the medications but other than that it is wrote to help with the pain until 4-1-14 by Angela Brown and I still am not receiving it on 12-22-14. Nurse Monte told me that they were setting me another Dr. appt, and they did not know why I had not already seen him. Somehow my appt was taking out of the computer. On 12-4-14 they called me to go to medical with about 7 other inmates to see the doctor and instead of leaving me in the front holding cell with the other inmates I was taken to the back by my self to see Nurse Giles for a sick call ~~is~~ and she told me again that I was going to be rescheduled for yet another dr. appt. On 12-5-14 I asked the Guard in the tower to call medical about my ~~leg~~ left leg because it was burning so bad that I could not stand it and my hemorrhoids were causing extreme pain. I also asked him to ask them about my tets for my legs to help with the circulation and he said that medical would get back with me.

Affidavit

This is a voluntary affidavit a declaration of facts written down by me, Thomas Campbell, and sworn to by me the declarant Thomas Campbell, before an officer authorized to administer oaths, such as a notary public,

I went to Unit 42 Hospital at Parchman on 9-29-14 for a follow up about my lungs and a blood test for my medication. I had been brought to Unit 42 on 9-26-14 to have my head sew up because I had passed out trying to go to the bathroom because I was throwing up blood. When Dr. ~~Meacham~~ ^{Meacham} sewed me up I told him that I had been throwing up blood a lot of blood and he told me to just wait because I had an appt. on 9-29-14 and they would let me see a doctor then. On 9-29-14 I saw Dr. Levine he took a stool sample and it had blood in it, so he wanted to send me to Greenwood Leflore Hospital, but I tried to get back on the transportation bus. On the way I broke out in a cold sweat and fell out throwing up blood all over the place. The medical staff tried to put an I.V. in me but all my veins had collapsed, so

they rushed me to the Greenwood Leflore Hospital and started putting blood in me about 4 pints. They put blood in me, two pints every day for a week and scoped me top and bottom and could not find where I was bleeding so they took me to Central Mississippi Medical Center in Jackson, Ms and did the same thing for another week, even made me ~~swallow~~ swallow a pill that takes pictures and could not find the leak. They did find a anorectal polypoid mass and a bloody mass in my colon, grade II internal and external hemorrhoids. A hiatal hernia was found in the esophagus. But all I was told was that they found a little tear in my colon which later I found out from Dr. Hochberg was a lie. My blood count stayed good for two days so they said I was cured. When I arrived at CMCF 720 Facility ~~and~~ I saw Dr. Brazier and my blood pressure was only 80/45. I was so weak I could barely walk or know where I was at. Dr. Brazier told me that if I started to bleed to let the guard tower know and they would call the clinic and get me to the clinic. I did not go to the bathroom for 4 days. I got so bad that I was throwing up my food because there was no where for the food to go because I was eating everything in sight. I told the tower and the clinic told me to put in a sick call. I put in several and nothing. I even walked to the clinic and asked them to please give me a ~~shot of~~ A cup of Milk of Magnesia and they kicked me out of the clinic. So I finally borrowed some Lactulose from another inmate and went to the bathroom about 7 or 8 times and it was mostly black with black water which was what the hospital told me was old blood that had stayed in me awhile. I finally got

on ¹⁰~~10~~-15-14

to see Dr. Brazler again and he told me that the reason that I could not go to the bathroom and the black water was the Iron pills that I was taking so I stopped them immediately. I told him that I was not going to the bathroom and that nothing was even coming down to my colon to even make me feel like I had to go. again it was the Iron pills and he still would not give me nothing to go to the bathroom. Again I saw him on ~~10~~-10-20 or 21-14 and he told me that the black was still the Iron pills but I explained to him that I had quit taking the Iron pill the last time that I had saw him, I had only been to the bathroom twice when I saw him on the 20th or 21st of Oct. then I begged him to give me something because it had been 4 days since I had gone to the bathroom and my stomach was hurting so bad, so he gave me something in a clear 12oz bottle and I still did not go until the next day, but he would not write me anything so I could go every day, and it was mostly a lot of black water. I went back and saw Dr. Hochberg on the 23rd of Oct. and my blood count was low and he ordered me some pain medication tylenol 3 with codeine, which Dr. Braizer had told me that he ordered and had not ordered. Dr. Hochberg also told me that they were lying about the tear in my Colon. That I really had a polyp in my colon and they were suppose to do a biopsy which had not been done yet to make sure that it was not cancer. He wrote the pain medication because my legs, ankles and feet were swelling up to twice the size they are suppose to be and for the recent head injury. My legs

and ankles and feet are hurting me so bad I can't handle the pain walking sitting or standing and not even the first lay-in. I went back on Oct. 28, 2014 to see Dr. Brazier to find out about my blood count and blood test that Dr. Hochberg ordered and Dr. Brazier told me that my blood count was pretty low and he tested my stools for blood and they were positive. He even showed me the test and showed me how to read it. I tried to get him to do something about the swelling in my lower extremities, so he said that he would order another blood test, some lasix to try and get some of the fluid off of them. However that was 10-28-14 and this is 11-6-14 and they are swelling and hurting so bad, I can't handle it because Dr. Brazier only wrote the medication for another 2 day. I prop my legs up for hours at a time and they will not go down or quit hurting. I asked Dr. Brazier about the pollup that Dr. Hochberg told ~~me~~^{me} about and he told me there was no pollup and that CMMC had completely checked me for cancer and I had none. I don't believe Dr. Hochberg would lie about something like that and I found the ~~pic~~^{pictures} from Greenwood before Hospital marked Exhibit B. Since Oct. 28, 2014 I have been filing Medical slips. Most of them I guess they throw away, the rest they send back telling me that I have too many complaints ~~on~~ on them. Exhibit C. On Nov. 5, 2014 I went to the bathroom and passed 3 toilet full of blood and almost passed out in the bathroom. I told the tower and the guard told me that medical wanted me to file a ~~another~~ medical slip

Finially Nov. 5, 2014 after lunch I was called to medical and they told me that they would request for me to see the doctor and I told them about me passing all the fresh blood that morning and they told me that I had seen Dr. Brazier for that on Oct. 28, 2014 and not to worry about it. Now on Nov. 6, 2014 I told Officer Caldwell in the tower how much pain I was in and that I had passed some more red blood when I went to the bathroom and the Clinic told her to tell me to put in another sick call. ~~Officer~~ Officer Caldwell wrote me a note and passed it through the drawer. ~~I~~ because I am hard of hearing and I could not hear what she was saying through the drawer. Campbell do solemnly swear that I am a citizen of the state of Mississippi, and that this Affidavit is true to the best of my belief.

When I first came to Unit 29 Parchman Angela Brown refused to give me any Milk of Magnesia, she told me that I did not need it that my hemorrhoids were fine and nothing was wrong with them except being swollen, I had to continuously put in medical slips, telling them I was bleeding and in an extreme amount of pain every time I go to the bathroom, I have chronic hemorrhoids every since I came in to the system in Feb. 2011.

I Told medical That I could not go To The bathroom Unless I Took Milk Of Magnesia, because my stools stay so hard That They rip my ^e and Tear me comming out on the inside, and I have To Strain Something Terrible JUST TO get a stool To come out. When she would write iT she would make sure That iT was Never enough for every day, so I would still be bleeding all The Time and burning and hurting everyTime I go To The bathroom with These hemorrhoids iT feels like Some one Tearing me from The inside out.

This is a request for administrative Remedy.

I have been filing medical slips asking for help and relief of pain and to see a specialist for my hemorrhoids since 2011. I have been telling the doctors about my bleeding every time I go to bathroom and about the extreme pain it is causing me ~~everytime~~ day when I go to the bathroom. I have to beg for medication ointment and Milk of Magnesia. I told Nurse Brown about my hemorrhoids when I first met her and she told me there was nothing wrong except swollen and that the piece hanging out was only skin. Everytime I go to the bathroom it feels like someone ripping me from the inside out. The last 3 times I have been called for my hemorrhoids after putting in 4 or 5 slips each time Nurse Brown has inserted her fingers into my rectum forcefully with me screaming for mercy. I have several witnesses because they did not close the door. On the 28th of July she inserted her fingers in my rectum with me begging her to stop and I had to squirm off the bed to get away from her and she ripped me about an inch going into my rectum that still is bleeding and has not healed up and it has been almost two weeks. She told me that everytime I came into complain about my hemorrhoids that she or somebody else would have to insert their finger in to check my hemorrhoids. When every other doctor has looked at my hemorrhoids and simply said "Oh My God they are bad!"

Copy - (2)

I saw a doctor in Jackson last year about the bulging discs in my neck in between C5 and C6 and C6 and C7 with a pinched nerve on the left side. I had an MRI in the first of 2013 that shows this. The doctor in Jackson said that I needed surgery and that was June of 2013 and still nothing has been done. The pain feels like someone has a knife stuck in my neck twisting it. When I complain to the doctors or ~~part~~ mostly Nurse Brown they threaten to take away my pain medications that I am on now instead of trying to treat the problem. I saw Dr. Lavine ^{on 8-7-2014} and was trying to explain everything going on with my body and I told him about what Nurse Brown had done with her finger about ripping me and violating me. He told me that it sounded like Nurse Brown knew more about me and my problems, even though she had just ~~ripped~~ ripped my rectum, so he went and got her. Nurse Brown has been giving me my medications here lately for a month or so without making me beg too much. But she still will not let me see a specialist and she has violated my rights and dignity 3 times without my permission.

I have been telling Nurse Brown and Dr. Hochberg about my weight loss since January and I have lost 30 pounds since January, from 202 lbs to 172 lbs. Dr. Hochberg put me on a special diet, 3,000 calories and a snack bag at night but no one will acknowledge it. Nurse Brown won't even help me get the proper paper ~~work~~ work sent to the food staff so I can get the extra food. She continues to say that it is normal for me to be 6'5" and a 172 lbs and that I am not under weight for my size.

I have not seen 172lbs since I was 12 or 13 years old. Dr. Burke ordered a bunch of blood test and some other test several months ago and a colonoscopy that was never done. He also put me down to be admitted to 42 hospital so they could find out what is causing the weight loss and to check my hemorrhoids but ~~then~~ When I went to 42 to be admitted Dr. Hochberg said that the test could be done without admitting me. The next day they called me to 42 and they could not find out why I was even at 42 and there was never anything done about the test. Nurse Brown told me on 8-11-14 that it was normal for me to lose all that weight and that everything was normal about my size.

I have been having a lot of problems with my left leg, my left ankle and foot. Also with my right leg an ankle with a lot of swelling and serious pain when I stand and even when I am sitting when they are swollen. I have been telling them about the shooting pain in my left leg and the pain in my left foot since 2011. That is why I have a cane because when I was in 30 they would make us stand for long periods of time and I would be in extreme amount of pain standing. I would sit in a box in for a few days until the pain eases up because when we go back to eat they make us stand so long I have fell twice because my ankles and legs are getting so weak. Nurse Brown says that they will not let her write a lay-in or she will get in trouble. Why do I have to put up with so much pain just because she does not want to get in trouble.

Copy - (4)

Remedy

I need some pain relief for my neck
 my hemorrhoids and my feet and ankles. I
 want to and ~~we~~ need to see a specialist
 for my hemorrhoids and if I need surgery
 then let's do it. I also want to talk
 to an outside person and to see ~~and~~ an
 outside doctor about what Nurse Brown
 did to me 3 times when she violated
 me and my rights as an inmate and
 patient. When she ripped me open an
 inch or more going into my rectum. When
 she did it I was kicking and screaming and
 crying for her to stop in front of a guard
 and other inmates listening with the door open.

I am writing to you concerning the pain that I am in. ~~I have disc protrusion at C6-C7 with foraminal stenosis on the left at C6-C7 and C5-C6.~~ My neck feels like someone has a knife stuck in it twisting it. My lower back hurts all the time. When I put weight on my left side, I have shooting pain down my left side all the way to my toes. ~~Dr. Strong states that there is evidence on my nerve conduction studies and EMG of peripheral neuropathy in my lower extremity.~~ I am in a constant amount of pain. I am on Tegretol and neurontin for pain but it does not stop the larger amount of pain. I am also on Stelizine, Rimlon, Thorizine and cogentin for psych medication.

I need to be sent to a specialist and sent to 720 for better medical treatment. I am not receiving proper medical treatment here. The doctors here don't even speak English let alone understand English. I got to see Dr. Bevin one time and he said he was going to work with me on my pain before he left. Will you please try to get me to a specialist ~~and at least~~ moved to 720 so I can receive proper medical attention. I am sending a letter from my ~~doctor and~~ lawyer and a letter from my doctor, Dr. Robert C. Strong which will prove that I have good reasons to be

complaining about being in pain.
All I am asking for is to be sent
to 720 where they have doctors
that are able to treat me for
my pain and problems that I have.
